

Phineas Molcott Cook family organization NEWSLETTER

VOLUME 17

MAY 1982

MESSAGE FROM YOUR PRESIDENT

The Board of Directors and Officers of the Phineas Wolcott Cook Family Organization, Inc. have met regularly and have diligently and actively pursued their responsibilities. I wish, in some magical way, that I could bring you into one of our Directors meetings so you could see and feel the sincere love and concern these Officers and Directors feel for the family. We draw from a wide range of experience and backgrounds and all are a credit to the family. They have been prudent in the expenditure of organization funds and have pursued those programs that are beneficial to the family.

REORGANIZATION

h some ways this has been a year of reorganization. In our April 1980 newsletter, we requested the use of a computer to prepare our mailing lists. We had two who offered their systems. Shirley Sealey in Alpine has a new word processor, and Kirsten Roundy in Logan offered their computer system. Since we were organizing our Post Office Committee in Logan, this was a real opportunity to have the computer there also. It is so important for these two committees to work together. The Roundy's have also offered to let us use their computer for our Descending Pedigree Chart work also. The address label on your newsletter was prepared by the computer.

We also reorganized the Chairmanship of the Post Office, History on Slides and Tape, and Genealogical Committees. We appreciate all those who are willing to serve on these many committees.

REUNIONS

We hope that all of the grandparent level family organizations are planning reunions this year. We would appreciate knowing of the date and location of these reunions and, if invited, we will try to have a representative from this organization attend. Please plan your 1984 reunions as a joint reunion with us in a BIG, BIG P. W. Cook Family reunion on the 2nd Saturday in August 1984.

PIONEER SPIRIT

Phineas Wolcott Cook and his wives were called upon several times to leave what comforts they had been able to acquire and to pick up everything they had and move into a new area to establish new settlements. They left well established areas to settle in Winter Quarters, Neb., Salt Lake City, Goshen, Bear Lake, Utah and Star Valley, Wyoming.

Many of us have wondered whether we could accomplish what they did and have probably said, "I couldn't have done that." I think we underestimate outselves. We are of pioneer stock and today we still face many challenges similar to that of our ancestors, as well as many challenges that our ancestors were not prepared to face. How many of us have uprooted our families and moved to a new location, or have sacrificed to get what we wanted in the way of training and education to be able to provide for our families. How many of us have faced seemingly unsurmountable hardships or tasks and through facing the challenge have prepared ourselves for greater opportunities. How many in our work have pioneered new fields and developed new ideas and new products in a world of rapid change. How many of us have faced a loss of job and started over in a new field only to find greater opportunities.

P. W. Cook and his wives were motivated by a testimony of the church they had joined and were willing to do anything that their leaders would ask of them. We, too, are motivated and can accomplish great things. We have great potential and are capable of doing anything we want, if we want to do it badly enough.

I feel a thrill as I hear of the many accomplishments of various members of our family and realize that there is great strength and talent within this great family. I know that Phineas and his wives are very proud of their posterity, as well they should be.

Have you recorded these accomplishments and events of your life for your posterity that they may know you. Many of us may say, "I don't have anything exciting to record. Nobody would be interested in what I do." Then ask your children and your grandchildren if they would like to hear your story or history. If by recording your history you could help just one of your posterity make a right decision to one of life's problems, it would be worth all of your efforts.

How many have heard a parent or grandparent (now deceased) tell some interesting stories about their youth, courtship, marriage, etc.? Are they recorded for posterity? If not and you don't record them, are they going to be lost forever? A valuable legacy thrown away?

Your story is priceless and there are many who want to hear it. Don't disappoint them.

CHANGE OF ADDRESS

We are attempting to update our mailing lists and reach each member of the family. We request your help in sending us names and addresses of any families who have recently married, moved, or that you think we may not have.

We are also enclosing a sheet requesting information to update our Descending Pedigree Chart. If you have not been contacted or furnished this information, please fill it in now and mail it to us.

We appreciate your support and assistance.

Sincerely,

LaMar Day, President

S U P MEMORIAL PLAQUES

The Sons of the Utah Pioneers have a new National Headquarters located at 3357 South 2300 East, Salt Lake City, Utah. It is a beautiful building overlooking Parleys Canyon. Much of the money used to finance its construction came from donations by descendants of Utah Pioneers who wished to have their pioneer ancestors honored by engraving their names on plaques in the foyer of this structure.

Since our family organization is still in debt for the printing of the P. W. Cook Diary, the Board of Directors felt that it was not wise to use \$500.00 of organization funds for this purpose. However, through the generosity of individual family members, the money was obtained and the names of Phineas Wolcott Cook and each of his four wives were placed on these plaques. We revere these great people and want to see them appropriately honored. We express our grateful appreciation to those family members who made this possible.

CHANGE OF ADDRESS

Our main means of contact with family members is through the newsletter; therefore, it is critical to our existence to have complete and accurate mailing lists. Please send us the names and addresses of newly married couples, those who have moved in the last year, and any others you think we may not have.

We are going to try a new method of follow-up on returned mail and incorrect addresses. When mail is returned from the post office without a better address, we are going to contact close family members by telephone. We hope you will assist these "Telephone Representatives" in obtaining new and corrected addresses.

GENEALOGY COMMITTEE REPORT

We're happy to announce that Ruth Phippen Malmberg has accepted the responsibility of Chairperson of the Genealogical Committee. This is a big responsibility and she will need lots of help from family members if she is to be successful in moving this work forward.

The Genealogical Committee plans to make all assignments through coordinators in order to systematically work new areas and keep duplication of work at a minimum. This is an exciting concept because each cooperating family member can work new areas with the advantage of sharing in the background and experience of all others researching the same lines. Please become a part of this coordinated research team and expand your changes for success. chances for success.

A great amount of work is being done on the Captain Daniel Cook - Elizabeth (Porter) Cook connection. We have worked through the Goshen records, the Church records, the Barbour and Hale collections, and still have not found Elizabeth (Porter) Cook. At present, we are working all of the Township Vital Records in the area around Goshen Litchfield County, Connecticut. In the Will of Daniel Cook's mother, Elizabeth (Pond) Cook, dated 15 December 1795 and probated 24 February 1796, she bequeathed to "my son Daniel Cook's wife Elizabeth, my sachel, my gold beads 'my son Daniel Cook's wife Elizabeth, my sachel, my gold beads and my silk cloak."

We regret that it has not been possible to extend the connections further on some of our ancestral lines. However, we have not received enough help to do the research that some of these lines require.

There are a few devoted members who have had considerable experience doing effective research, but they cannot do all the work alone. Realizing this, they are willing to train and direct those who have a desire to do research. This is a great opportunity for those who are willing to put in the time to learn from those with years and years of experience. Anyone who is interested in helping with this research is invited to participate.

The persons assigned as coordinators on three main family lines are:

The " 'Captain' Daniel Cook" Line

Claudia Phippen King 70 Country Club Drive Highland, Utah 84003 (801) 756-6534

The "Elizabeth Porter" Line

Pearl Cook Day 523 East 700 South Salt Lake City, Utah 84102 (801) 359-2836

The "Irene Churchill" Line

Clella Cook Glazier 1843 East Clayborne Avenue Salt Lake City, Utah 84106

(801) 467-3434

These qualified coordinators will give you an assignment according to your experience and share with vou their experience and background. If you need some training they will train you themselves or assign you to work with someone who can train you.

If you are currently working on any Cook lines, please, share your information with these coordinators.

PLEASE! PLEASE! Respond to our plea for help!

PHINEAS WOLCOTT COOK DIARY

We appreciate those of you who have purchased copies of the diary. We are still in debt for the printing, \$2,817.50 and must approximately 700 more copies to pay off this debt. Those who loaned us the money were generous and have not charged us interest, but are now needing their money back. We also must clear this debt and build up a surplus before we can complete any new projects.

If you haven't purchased diaries for yourself, your children, or your grandchildren, please do so at this time, as this is part of your (their) personal history.

We have a lot of faith in the family members, therefore, we printed up a substantial number of copies to get a better price and be able to keep our price down. We have felt that by charging only \$5.00, every family member should be able to afford one and would get them quickly. Please order your copies

URGENTLY NEEDED

We need to fill the following positions immediately:

CHAIRPERSON for the Newsletter Committee. This person is responsible for the production of from one to two newsletters per year. We need someone who can draw creative ideas from others.

EDITOR on the Newsletter Committee. This person would be responsible for editing all articles submitted for the newsletter.

TYPIST on the Newsletter Committee. We need someone who has full access to a "Word Processor", and is trained in

PRINTING LAYOUT person to serve on both the Newsletter and Descending Pedigree Committees.

We need someone with experience in each of these positions and preferably located in the Salt Lake, Provo or Ogden areas.

COMMITTEE

The History of Phineas Wolcott Cook on Slides and Tapes Committee is presently gathering photographs for a slide history presentation. We are certain that many family members have photographs and slides that will be very helpful in preparing this history.

We would appreciate your sending us copies of any pictures you feel should be included. If you are sending originals, we suggest you send them by certified mail and after we have made slides, we will return them, also by certified mail. We realize that some of these may be rare originals which you would be reluctant to part with. We would appreciate receiving copies of them or a description and the location where we can view them.

Many types of slides are needed for this project. These may be personal photos of P. W. Cook and his immediate family members, either as individuals or in family settings, property which he owned, family houses, or any other item you feel would be of interest that relates to P. W. Cook and his life. We can make slides from books, old photographs, newspaper clippings and personal articles, large or small.

We need these as soon as possible as we are desirous to complete this project. This slide presentation with accompanying tape narration will be made available to family members.

Please send all information to:

W. Keith Cook 606 East 930 South Pleasant Grove, Utah 84062

or

P. W. Cook Family Organization 467 West 2400 South Bountiful, Utah 84010

Thank you for your help with this project.

Sincerely

W. Keith Cook, Chairman

FINANCES

Are you among the 5% of the families paying dues? We have planned many projects for the benefit of the family and are diligently pursuing their completion. Unfortunately, it requires a substantial amount of money to complete these projects. The dues paid to this Tax Exempt Corporation are deductible as a donation on your income tax return. The dues have remained at \$10.00 for several years and we do not want to increase them, but would encourage more members to pay their dues so that we can provide a greater service to the family.

We greatly appreciate your assistance and hope that we are providing the services that you desire. We welcome your suggestions.

REWARD OFFERED IN MYSTERY HOUSE CONTEST

For many years P. W. Cook has been given credit by family members for building the Brigham Young farm house recently moved up near the "This Is The Place Monument" in Salt Lake City, in what is now a Utah State Park. However, this frame house was built in about 1863-1864 when P. W. Cook was in the Bear Lake Area.

On pages 75-77 and 81-86 of the P. W. Cook Diary, Phineas tells of his experiences (and psychology used) in building the Brigham Young farm house, a frame and adobe structure, 45 by 110 feet, two stories and a basement, and which was to be called Brigham's "big house."

Mystery: Where was the "big house" located which he built in 1854-1855? Is it still standing? Are there any existing, early pictures of it?

Reward: A free diary to the first person sending in correct information about the house, where it was located and if it still exists.

Two free diaries to each of two persons sending in the most complete information. We would really appreciate a picture if it is available, or if an early picture exists but is not available, please tell us where the picture is located.

BIOGRAPHY OF EDWIN SILDON AND ALICE FRANKLIN EDWARDS

Edwin Sildon Edwards was born on April 8, 1876, at Tai Tai Wellington, New Zealand, to John and Mary Ann Grev Edwards. He was the fifth of eight children.

He was a fireman on the railroad, and a carpenter by profession. He enjoyed sports and played on the soccer team. He helped win a championship soccer game.

Alice Hermina Franklin was born on September 23, 1885, at Mauriceville, New Zealand, to George Reuben and Agnes Marie Gunderson. She was the oldest of 12 children. Her parents ran a post and telegraph office and store. Her father died at the early age of 38 of sugar diabetes, leaving her mother to raise the family alone. She managed to give all her children a good education.

Alice left home at the age of 14 to go to work. She was working for a baker when she met Edwin, and their romance and courtship started when he walked into the room and winked at her. It was then that Edwin made up his mind that she was the one for him. Soon after they met, Alice was the victim of a terrible accident. She was standing in front of an open fireplace when her skirts caught on fire. Her legs were burned so badly that the doctors said she would never walk again. She laid in bed for nine months. After everything else had failed, she was cured by an old Maori remedy which consisted of wrapping a certain kind of leaf around her legs, which healed the wounds, and she was able to walk again. During this time, Edwin visited her often, helping to keep her in good spirits. She was able to walk to the altar with Edwin. She was 18 and he was 27. They were married at the Presbyterian church at Drevton on April 4, 1904.

They made their first home in Wairarapa District. They ran a dairy. They were blessed with six children. It was during the time they were living here that Elder William Tew contacted them and they gladly accepted the gospel. Edwin was so anxious to be baptized that he couldn't wait for the birth of their oldest son. He was baptized on December 23, 1906. Alice was baptized on February 3, 1907. They were the only members of either family to accept the gospel. Their greatest desire was to come to Zion.

A short time before the birth of their last child, they moved to Auckland, where Edwin was working on the Auckland Fair as a carpenter. There was a bad railroad accident and because of Edwin's experience working on the railroad, they asked him to go and help. He rode on a flat car in a heavy rain, which caused him to get a bad cold. He became so sick he was taken to the hospital, where he died of pneumonia on January 26, 1914, just three months before the birth of his last son, Leland.

After Edwin's death, Alice took her family back to her mother's in Capoaroya, where they lived for a year.

It was still Alice's desire to bring her little family to Zion, and so even though her mother begged her to give up the Church and stav, telling her she wouldn't want for anvthing, Alice set sail on the H.M.S. Makura for American on August 15, 1915. They landed in Vancouver, Canada, after 15 days on the ocean. They lived in Salt Lake City for a year in the Forest Dale Ward. Then Alice went to Whitney, Idaho, where they lived for about seven years. They lived across from the Benson family home in Whitney, and one of their bishops was Ezra Taft Benson's father. When the children were old enough for school, they moved to Preston.

One of Alice's outstanding characteristics was her faith and those who came in contact with her remembered it, and her courage in face of hardships. She had a sunny disposition, and she was always singing. She served in the Relief Society and Primary and was much in demand for faith-promoting stories, especially to the children. When she first arrived in Salt Lake City, Alice had only \$100 left and when that was gone, she had her little family kneel down and ask their Heavenly Father for help. When they got through with the prayer, there was a knock at the door and a man stood there with a basket of food, in answer to their prayers.

In later years after her family was all raised and married (all in the temple, which was her desire), she married again. Her husband was Joseph Taylor and he had a family of eight children. She took care of them for 18 months. She died on November 30, 1936, at the age of 51, of sugar diabetes. She had been a good influence in their home and was missed.

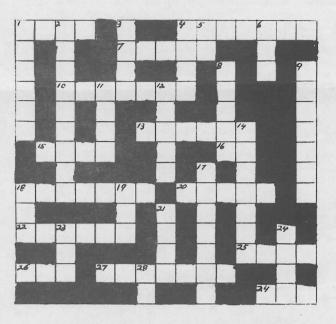

Her voungest son, Leland, married Verona Elizabeth Erickson, the great granddaughter of Phineas and Amanda Polly Savage Cook.

FORMER PRESIDENT RECEIVES FEDERAL APPOINTMENT

COOK NAMED TO HEAD FEMA REGION VIII

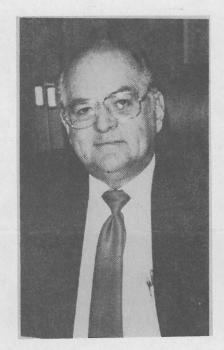

Alton D. Cook, a resident of Brigham City, Utah, has been named director of Region VIII of the Federal Emergency Management Agency (FEMA) by Louis O. Giuffrida, director of the agency.

Agency (FEMA) by Louis O. Giuffrida, director of the agency.

As Region VIII Director, Cook will oversee FEMA's activities in Colorado, Montana, North Dakota, South Dakota, Utah and Wyoming. FEMA is the federal coordinating agency for comprehensive management of man-made or natural disasters. The agency's programs supplement state and local efforts as needed to prepare for, respond to and recover from these incidents.

Since 1969, Cook has been President and Chairman of the Board of two firms he founded: Alton's Real Estate Corporation and Cook and Suns Solar Systems, Inc.

Prior to that, Cook worked in the aerospace industry for nearly 20 years. During his career, he was involved in developing hardware for NASA's Apollo Applications Program (now known as Skylab); developing, demonstrating and testing the first-stage propulsion system for the Minuteman missle; and designing and testing the F-106A aircraft.

MUSEUMS COMMITTEE REQUEST

They say a picture is worth a thousand words, but if it is a picture of your ancestor, then it is worth so much more. This family picture turns a name on a pedigree chart into a real person. And it is important to teach our children about their ancestors. We'd also like others to know about our special grandparents because they were so valiant.

We, on the picture committee, want to know about those priceless old pictures that people in the family have. We know they are special and we don't mean to take them away from you, but maybe we could get copies from them. We are especially looking for pictures taken before 1900. The committee knows of a few pictures, but we would like to find more. Your cooperation would be appreciated.

The Daughters of the Utah Pioneers are looking for pictures of pioneers who came into the Salt Lake Valley before 1869. Our ancestors came in before then. This organization would put these pictures on permanent display for everyone to see. We'd like pictures of our ancestors added to this group because they lived lives worthy of this honor.

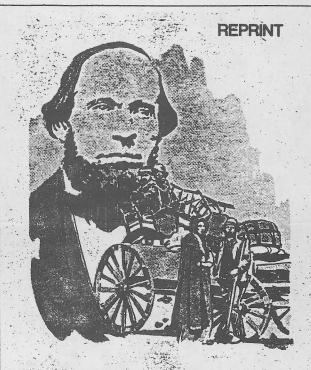

nother reason for getting copies of the pictures, is through tures you can recognize our loved ones at different stages of their lives.

If you have some old family pictures and you don't know what to do with them, we would be happy as a family organization, to keep them in our archives. At family get-togethers, they could be on display for everyone to see.

As chairman of this committee, I feel very strongly about the importance of this search. Pictures are priceless to all of us—all of Phineas Wolcott Cook's ancestors. If you share with us your pictures, they they would be our special pictures, too. Please help us if you can.

PROFILES FROM THE PAST

Where truth prevailed

The recent martyrdom of Joseph Smith sparked much talk about the Mormons, Phineas Cook later remembered, "but nobody seemed to say anything good" about them. Consequently, news that his older sister had joined them led Phineas to conclude that "she had turned fool or crazy" and he refused to listen to her.

Later, he also refused to accompany his parents to hear the Mormon elders. Though 24 and married, he resided on his parents' farm both because they needed his labor and because he had no resources of his own. Phineas' parents returned from the Mormon meeting saying that they had always been Mormons "but never knew what the devil to call it" before.

Armed with Bible, notebook and borrowed pencil, Phineas defiantly prepared to challenge the imposters at their next meeting. After speaking, the Mormon elder invited comment on his message. Though all eyes focused on young Cook, he remained in his front row seat, silent. Why had he not put the man in his place as he had done with preachers before, friends asked after the meeting? "The man told the truth," he answered simply. "I could say nothing," Cook later wrote, "for I knew that what he said was true." He had always said that the truth would prevail, "and it had surely done so at this time, especially over me."

After Phineas and his wife Ann Eliza were baptized, his parents, unwilling to join those about whom so many strange things were said, tried to dissuade them from leaving Michigan to join the Mormons.

Eventually Phineas and Ann Eliza scraped together enough equipment and provisions to start out. "Never mind," Phineas's father comforted mother, "He'll be back to winter." Though faced with difficulties at every turn, Phineas was determined "not to back out, nor have it said that the God that I served had failed." With barely enough to eat and after burying several small children along the way, the Cooks arrived in Utah in 1848.

A skilled builder, Phineas left his mark on the homes of Brigham Young and others in Salt Lake City. He and his family were also among the earliest settlers of several Mormon communities including Manti, Bear Lake and the Utah Valley settlement of Goshen, named after the Connecticut birthplace of its founder and first bishop, Phineas Wolcott Cook. — Ronald K. Esplin

Another in a series on Church history produced by the Joseph Fielding Smith institute for Church History. drawing by Descret News artist Reed McGregor.)

This article appeared in the Church Section of the Deseret News on August 22, 1981.

DESCENDING PEDIGREE CHART

We are planning to update the Descending Pedigree Chart which was last printed in 1969. Since this will contain over 4,000 descendants of Phineas Wolcott Cook and his four wives, it requires a great amount of work to obtain, accurately record and prepare for printing, such a vast amount of information.

If you have not been contacted and submitted this information (during the last 18 months) then please assist us by filling in the information on the back of this sheet vou received with this newsletter and mail it to us today. Please be very accurate in the information you record. We appreciate your help.

Addresses

Dear Cook Family Member,

As you are aware, we are trying to update the Descending Pedigree Chart. To do so, it is necessary to obtain the information requested. Please fill in the blanks and return it to the address listed above. Please check the spelling of names very closely, as it will be printed as you give it to us. Please make any corrections you find necessary and give both <u>names</u> and <u>addresses</u> for each family. Please list each child, including adopted, deceased or stillborn. Please note any anticipated changes in families in the next year, such as marriages and births.
